Lampholder mounting brackets	<ul style="list-style-type: none"> <li>- Lampholder</li> <li>- Safety</li> <li>- Compliance</li> </ul>	OSM/LUM-ETF5	2019 ETICS Plenary Meeting
Question			
<p>In a situation where a lampholder is mounted on a mounting bracket within a luminaire, how is the mechanical strength of the lampholder / bracket assembly to be assessed. In this situation the lampholder would not normally be put into position by the user. Any mechanical stress would only occur when changing the lamp.</p> <ul style="list-style-type: none"> <li>- Is clause 4.4.4 the correct clause for the test?</li> <li>- What is the correct way to apply the bending moment force?</li> <li>- After the test described in item ii, there is no written test to show the compliance. What is the compliance requirement after the test is done?</li> </ul>			
Decision			
<p>After the tests, the lampholder shall not be displaced in such a way it could impair the safety of the luminaire.</p>
